

VOLTAGE IN THEIR VEINS

The Miller and Wingen men share a total of 177 years of experience in the electric utility industry. Pictured above are Joel Miller, Rollie Miller, Travis Miller, Corey Miller, Wes Wingen and Dustin Wingen.

Miller, Wingen utility workers represent a combined 177 years of faithful service

Tara Miller

Take a moment to imagine life without electricity. No household appliances, no electric heat, no air conditioning, no internet and no phone. In 1925, only half of homes in the U.S. had electricity. Fast forward to 2022, and electricity is a basic necessity.

April is Lineworker Appreciation Month – a time to celebrate and honor the brave men and women who often work in hazardous conditions to power our world.

The Miller family, originally from Canova, has 177 years of electric industry experience, and most of them started their careers as lineworkers.

WHERE IT ALL STARTED

Before attending school to become a lineworker, Joel Miller, better known as “Joe” or “Smokey” to some, graduated from Canova High School and began working at Overhead Door Company

in Sioux Falls. While he didn’t mind the work, he knew it wasn’t what he wanted to do for the rest of his life. Joe then heard about an opportunity to attend school and become a lineworker.

“I knew Ron Callies. He was an instructor,” Joe said. “He told us to look at the program, so Robert Zens and I checked it out and thought we would give it a try.”

Joe graduated from what is now known as Mitchell Technical College (MTC) in 1978 and began the family’s legacy of life on the line when he joined East River Electric in Madison. He started on the construction crew and later worked in maintenance. His friend Robert Zens also worked at East River Electric, but passed away in a motorcycle accident in 1980.

Joe worked at East River Electric for nearly 20 years before he moved to Western Area Power Administration (WAPA) in Pierre. WAPA is a federal organization that markets and delivers hydroelectric power and related services

across the 15-state region. Joe retired from his position of line foreman at WAPA in 2020 after 43 years.

FOLLOWING THE LEADER

Rollie was next in the Miller family line-up, a year younger than Joe. His mom talked him into going to Pipestone, MN, to work at Bayliner Boats with his older brother Ed. Rollie then worked at Feterl’s Manufacturing in Salem where he welded augers until he decided to enroll in line school at MTC at the age of 20.

“The biggest reason I went to line school was because Joe had just done it, and I was friends with Robert Zens. I saw how they just did it, and I thought I could do it, too,” Rollie explained.

Rollie now manages Vigilante Electric Cooperative in Dillon, MT. Before running the show, he worked for an electrical contractor and for West River Electric.

He then attended SDSU and worked for Bob’s Electric in Flandreau with Reggie Gassman, who is manager of customer electrical services at Sioux

Valley Energy. They both grew up in the Canova area.

Rollie earned a bachelor's degree in electrical engineering, allowing him to become a licensed professional engineer.

"My education has greatly benefited me throughout my career," Rollie said.

Rollie's boys are also following the family tradition. Cody Miller attended SDSU to become an electrical engineer and consults for electric utilities, and Logan "L.J." Miller is enrolled in the power line construction and

maintenance program at MTC.

"It's not a cake walk. I told them you really have to study and work hard," he said.

After Rollie, Corey was the next Miller brother to attend MTC.

"The reason I went into it is because I had two older brothers who were

Cody Miller

L.J. Miller

linemen. I knew when I was a freshman in high school that I was going to be a lineman," Corey said.

After graduating from MTC in 1987, Corey became an apprentice lineworker at Public Service of New Hampshire. He worked there for three years, then took a position at Missouri Public Service.

Like his brothers, Corey worked his way up the ranks. He was hired as a lineworker and promoted to foreman, then supervisor, and now works in management. He is also on the board of directors for the International Lineman Rodeo Association, helping host the annual lineman rodeo event which promotes lineworker safety.

Corey's 15-year-old son Zach plans to become a lineworker after high school. Corey shares this advice for anybody

- **Joel Miller**, Retired Line Foreman at Western Area Power Administration (Pierre, SD)
43 Years, 6 months of industry experience
- **Rollie Miller**, General Manager at Vigilante Electric Cooperative (Dillon, MT)
42 years, 6 months of industry experience
- **Corey Miller**, Director of Regional Operations at Evergy (Lexington, MO)
35 years, 6 months of industry experience
- **Travis Miller**, Foreman at Southeastern Electric (Salem, SD)
30 years of industry experience
- **Wes Wingen**, Manager of Meter Services at Black Hills Power (Rapid City, SD)
15 years, 10 months of industry experience
- **Cody Miller**, Electrical Engineer (Dillon, MT)
8 years, 6 months of industry experience
- **Dustin Wingen**, Former Lineworker at Alaska Village Electric Co-op (Anchorage, AK)
2 years of industry experience
- **Logan (L.J.) Miller**, Student in the power line program at Mitchell Technical College

considering a career in the field:

"We need linemen. It is an awesome profession to get into. Linemen live to restore power – that's their lifeblood. And, quite honestly, you will make a very good wage while doing that."

Travis was the last of the Miller brothers to attend line school. He decided milking cows wasn't his calling, so in 1991 at age 26, Travis followed the path started by his big brother Joe.

"I figured they all did it, so I could probably do it better," Travis joked. He is now the foreman at Southeastern Electric in Salem.

Wes and Dustin Wingen are the sons of Stacy (Miller) and Bob Wingen. They are nephews to the Miller brothers and have also been involved in the electric utility industry. Dustin was a lineworker in Anchorage, AK, before coming back home to farm. Wes is an engineer and manager of meter services at Black Hills Power in Rapid City.

IT'S A MILLER THING

The Miller family had nine children: Sandy, Duane, Ed, Joe, Rollie, Stacy, Derrin, Travis and Corey. Marcella, mother of the youngest eight children,

passed away in 2011, and Duane "Stub" Miller, the family patriarch, currently resides in Howard. Stub shared, "People don't know it today, but having electricity is something we shouldn't take for granted."

The four Miller brothers share a combined 151 years of electric industry experience. When you add it all up, the Miller and Wingen men boast an impressive 177 years of electric industry experience.

They couldn't have worked in this profession without the support of their families, which are too large to list. All the storm jobs, dangerous assignments and family moves were worth it when they think about the people they serve. They all agree, "It's a Miller thing" and working with voltage is in their veins.

THANK A LINEWORKER

Please take time to thank lineworkers for all they do to brighten our lives. We thank the Miller family for their many years of service in the industry.

Editor's note: Writer Tara Miller is Travis Miller's wife and works for Central Electric Cooperative near Mitchell.
