

SUMMER NIGHTS & BALLPARK LIGHTS

Above: Travis Zomer drills in material while Wes Kloucek works below.

Right Top: From the ground, Sean Kafka directs Tyler Suess in the bucket truck.

Right Bottom: Tyler Suess hangs one of the ballpark lights.

Bon Homme Yankton Electric donated time and labor to put up new ballpark lights at the Tabor softball field.

Players, coaches, and parents no longer have to worry about playing in the dark this summer at the Tabor softball and Little League field.

Bon Homme Yankton Electric donated time and labor to ensure that local athletes can use the Tabor ball field to its fullest potential throughout the softball and baseball seasons.

Our wholesale power provider

East River Electric Cooperative contributed by donating poles, and the City of Tabor paid for the lights and the electrical materials.

Our entire operations crew helped with this project. This past winter, we set poles around the softball field, and this spring, a few of our linemen and our electricians wired and hung the lights.

Now who's ready to play ball!?
